### Technical provisions

Veterinary regulations:

- Before unloading the horses, it is necessary to hand in relevant veterinary documents (**Horse Identification Charts**) which have to contain valid documents permitting horse transport according to the 2019 Veterinary regulations.
- The participants are obliged to follow the instructions given by responsible person assigned by the organiser, including instructions on horse unloading before the arrival of the vet.
- Horse Identification Charts must be stored during the competition at the race secretary for the purpose of possible check by the State Veterinary

Administration Office.

- Furthermore, the Horse Identification Chart must contain a proof that the horse is vaccinated in accordance with the vaccination pattern provided by the producer of the vaccination. The horse must be immune to **equine influenza** (horse flu); the last vaccination must have been executed at least 7 days prior to the event. Any horse older than 12 months must have undergone a laboratory test on **equine infection anaemia** with negative results **within 12 months prior to the event.**

### General information

- The organiser is not responsible for any injury of a horse or person, neither for accident, illness, item loss or damage. All costs associated with the participation in the competition are covered by the participant.
- Information for dog owners. **Dog are not allowed on the premises.**

### Other services

- Medical service
- Veterinary service – charged
- Smith's service – charged
- Parking – in the allocated parking area
